

Requirements:

- Windows NT server 4.0 SP 5 or NT 2000 server SP2
- 350 MHZ PII Processor
- 128 Megs of Memory
- WorkSite 4.1, SP6 server or greater

Product Description

The Directory Importer runs as an NT service. It automatically poles a directory for the arrival of files. These files will be imported and profiled by metadata.

Metadata can be text files or XML files describing the files to be imported.

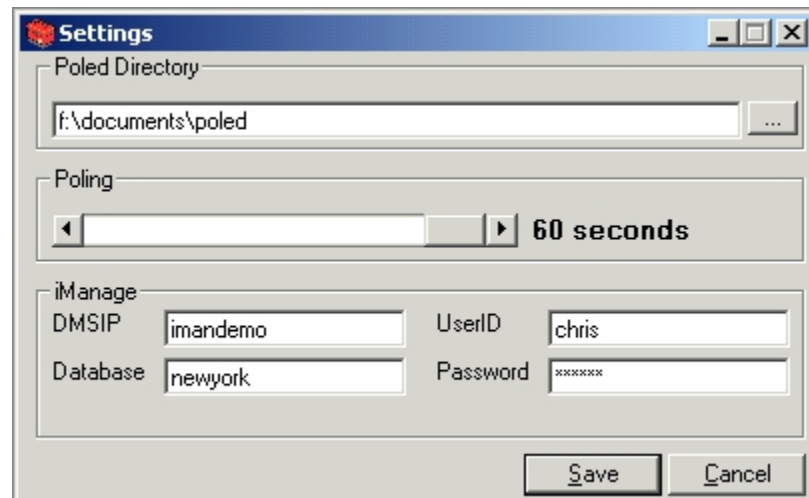

Pricing:

- \$5,000 per server*
- Annual Maintenance is calculated @ 18% of total list price

**Includes support for up to 5 WorkSite Databases and 100 users.*
